

## **Why have a radio on the Welriet Network?**

- 1. This is an analogue system that does not require expensive equipment for repeaters in our environment.**
- 2. The radios we allow on the network has a panic button you can press, and the JOC will know exactly who is in trouble and take the appropriate actions. Contact the office for further information on how to purchase a network compliant radio**
- 3. Our repeaters have backup power to last during loadshedding.**
- 4. We have noticed cell phone tower issues during loadshedding where a radio on our network comes in handy in an emergency.**
- 5. The JOC monitor the radio 24 x 7.**
- 6. You can immediately alert all people on the network in case of an emergency.**
- 7. You also have some channels you can use outside of the network.**
- 8. Only vetted people from our area are allowed on the network.**
- 9. ALL of this for a minimal monthly fee of R80.**
